CDC NOW Admits NO 'Gold Standard' for the Isolation for ANY Virus !

Updated: 4 Sep 2021

NO ONE HAS EVER ISOLATED, PURIFIED AND/OR SCIENTIFICALLY VERIFIED AND PROVEN THE EXISTENCE OF ANY AND ALL VIRUSES AT ANYTIME, AT ANY PLACE, ANYWHERE IN THE WORLD!

Over the last several months we have requested from the Center of Disease Control (CDC) evidence for the isolation and existence for the any and all viruses, including CoV - 2 and 19, MERS, Influenza, Polio, Measles, HIV, XMRV, HTLV-1, HTLV-III/LAV, HPV, Ebola, Zika, just to name a few of the so-called viruses, disclosed under the Freedom of Information Act (FOIA).

These written requests were made by Ms. Christine Massey to CDC/ATSDR FOIA Chief Officer Mr. Robert Andoh, to locate and deliver ANY records, research and/or findings for ANY "viral" isolation and purification (by anyone, anywhere, anytime in the World) from a patient sample via maceration, filtration and/or the use of an ultracentrifuge or what is called the 'Gold Standard' for isolating and identifying a pathological micro or nana organism. The 'Gold Standard' for isolating and identifying microbes is referred to as Koch's and Rivers Postulates which was established many years ago.

Koch vs Rivers

Koch (1884)

1. The microorganism found in the ill but not the healthy
2. The microorganism must be isolated from a diseased organism and grown in pure culture.
3. Produce same disease in host
4. Re-isolation of microorganism

Rivers (1937)

1. Isolation of virus from diseased host
2. Cultivation of virus in host cells
3. Proof of filterability
4. Produce same disease in host
5. Re-isolation of virus
6. Detection of a specific immune response to virus

Method for Isolating Virus

The diagram illustrates the process of isolating a virus. It begins with a test tube containing a yellow liquid. An arrow points to a petri dish showing cell culture. Another arrow points to a diagram of a centrifuge tube with 'Supernatant' and 'Pellet' layers, labeled 'Armoured casing' and 'Rapidly rotating rotor'. A final arrow points to a photograph of a microscope.

The CDC Chief FOIA, Mr. Roger Andoh provided straightforward responses to each one of our requests, admitting in writing that they have NO RECORD of ANY KIND, for the following so-called phantom “viruses”, including CoV - 2 -19, HIV, HPV, XMRV, HTMV-1, HTMV-111/LV, Measles, Influenza, MERS, EBOLA, ZIKA or POLIO!

3

All Governments and their related health Institution and Agencies have relied upon a published study, " Detection of 2019 Novel Coronaivrus (2019-nCoV) by Real-Time RT-PCR."

If you will read the aim of the study you will see that they had NOT isolated a virus based upon Koch's or Rivers postulates. They state in their 'AIM' and 'Methodology' in the so-called study as follows:

Aim

"We aimed to develop and deploy robust diagnostic methodology for use in public health laboratory settings without having virus material available."

Methods

"Here we present a validated diagnostic workflow for 2019-nCoV, its design relying on close genetic relatedness of 2019-nCoV with SARS coronavirus, making use of synthetic nucleic acid technology."

Out of their own mouths the authors of the study condemn themselves by stating that they had not isolated the CoV-19 so they created the virus and the methodology for testing for this so-called coronavirus out of 'close genetic relatedness' generated from their own minds and those of others with computer algorithms.

This is why I have stated for years that viruses only exist on a piece of paper and have published a paper on this so-call theory, "The Virus Is A Concept That Only Exists On A Piece of Paper." [<https://www.drrobertyoung.com/post/the-virus-is-a-concept-that-only-exists-on-a-piece-of-paper>]

Welcome to the Centers for Disease Control and Prevention (CDC) Freedom of Information Act (FOIA) site. CDC is the nation's leading public health agency, dedicated to saving lives and protecting the health of Americans. CDC ensures its science and research activities and its employees comply with federal laws, regulations, and policies in order to exercise the highest level of scientific integrity. At the core of this mission is information sharing—not just health information and disease study results, but information CDC gathers as part of a continuous process of putting information into action. As a science-based agency funded by U.S. taxpayers, CDC is committed to openness and accountability. Like all federal agencies, CDC is required to disclose records requested in writing by any person unless the records (or a part of the records) are protected from disclosure by any of the nine exemptions contained in the law. This site provides information about the CDC FOIA Office program and how to access CDC records.

1. June 7, 2021: CDC admits they have no record of any "COV - 2 or 19 virus" purified from any patient sample via maceration, filtration and use of an ultracentrifuge, by anyone, anywhere, ever:

 DEPARTMENT OF HEALTH AND HUMAN SERVICES Public Health Service
 Center for Disease Control and Prevention

 June 7, 2021

Mr. Christine Murray
 21 Rossmore Avenue
 Pasadena, MD 21201
 Via email: chrismur@gmail.com

Dear Mr. Murray:

This letter is in response to your letter to the Center for Disease Control and Prevention and Agency for Toxic Substances and Hazardous Waste Registry (ATSDR) President of Information for ATSDR request of April 16, 2021, for:

All studies and/or reports in the possession, custody or control of the Center for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Hazardous Waste Registry (ATSDR) describing the purification of any "HPV" or any "contaminant" (e.g., "HPV" or "contaminant") from a sample taken from a deceased female, where the patient sample was kept after contact with any other source of genetic material (i.e., possibly linked with the virus only, that female source). Please note that we are requesting studies/reports where researchers failed to publish the requested "virus" and instead "submitted an unpublished sample at other unrelated institutions, analysis published as unpublished data in a PhD thesis or other that from a patient contact, or direct cell culture, or in genetic material that was unrelated to the sample" (i.e., unrelated to the virus that from a patient sample) or that is not of the same type as the sample, and/or "published material" (i.e., published material).

A search of our records failed to reveal any documents pertaining to your request. Specifically, the National Center for Immunization and Respiratory Diseases (NCIRD) does not carry or hold any HPV or HPV-related data in the manner the request describes.

You may contact our Public Public Liaison at 770-488-4377 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to request about the OGIS resolution services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8001 Multiple Road/0001, College Park, Maryland 20740-6001, a mail or telephone per: telephone at 202-741-0770, toll-free at 1-877-684-6463, or facsimile at 202-741-0760.

If you are not satisfied with the response to this request, you may administratively appeal by writing to the Regional Office of the CDC, Office of the National Archives and Records Administration, U.S. Department of Health and Human Services, Robert H. Rouse Caffery Building, 100 Independence Avenue, Suite 1000, Washington, DC 20540. You may also request your appeal be made to:

FOIA@hhs.gov. Please mark both your appeal letter and envelope "FOIA Appeal."

Ms. Christine Massey
21 Keystone Avenue,
Toronto, MA 109
Via email: cmassey@gmail.com

Dear Ms. Massey:

This letter is in response to your Centers for Disease Control and Prevention Agency for Toxic Substances and Disease Registry (CDCTATSDR) Freedom of Information Act (FOIA) request of April 16, 2021, for:

All studies and/or reports in the possession, custody or control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR) describing the purification of any "virus" that is infectious, directly and/or via an ultracapsule, also referred to as virus by some people as "infectious", directly from a sample taken from a deceased human, where the patient sample was not first combined with any other source of genetic material (i.e., monkey kidney cells aka Vero cells, fetal bovine serum).

A search of our records failed to reveal any documents pertaining to your request. Specifically, the National Center for Immunization and Respiratory Diseases apprises that CDC does not purify or isolate any "virus" addressed by any vaccine on either the childhood or adult U.S. "immunization schedule" in the manner the requester describes.

You may contact our FOIA Public Liaison at 770-488-6277 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

If you are not satisfied with the response to this request, you may administratively appeal by writing to the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, Hubert H. Humphrey Building, 200 Independence Avenue, Suite 729H, Washington, D.C. 20201. You may also transmit your appeal via email to FOIAAppeal@hhs.gov. Please mark both your appeal letter and envelope "FOIA Appeal."

402-0076-0700

Your appeal must be postmarked or electronically transmitted by September 1, 2021.

Respectfully,
Rajiv Anand
CDC ATSDR FOIA Officer
Office of the Chief Operating Officer

Fax: (404) 219-1022

4. A Letter from the CDC Concerning the Childhood and Adult USA "Immunization Schedule"

DEPARTMENT OF HEALTH AND HUMAN SERVICES
Public Health Service
Centers for Disease Control and Prevention (CDC)
Atlanta, GA 30333
June 7, 2021

Ms. Christine Massey
21 Keystone Avenue,
Toronto, MA 109
Via email: cmassey@gmail.com

Dear Ms. Massey:

This letter is in response to your Centers for Disease Control and Prevention Agency for Toxic Substances and Disease Registry (CDCTATSDR) Freedom of Information Act (FOIA) request of March 1, 2021, for:

All studies and/or reports in the possession, custody or control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR) describing the purification of any "virus" addressed by any vaccine on either the childhood or adult U.S. "immunization schedule" (via maceration, filtration and use of an ultracapsule, also referred to as times by some people as "infectious"), directly from a sample taken from a deceased human, where the patient sample was not first combined with any other source of genetic material (i.e., monkey kidney cells aka Vero cells, fetal bovine serum).

A search of our records failed to reveal any documents pertaining to your request. Specifically, the National Center for Immunization and Respiratory Diseases apprises that CDC does not purify or isolate any "virus" addressed by any vaccine on either the childhood or adult U.S. "immunization schedule" virus in the manner the requester describes.

You may contact our FOIA Public Liaison at 770-488-6277 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

If you are not satisfied with the response to this request, you may administratively appeal by writing to the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, Hubert H. Humphrey Building, 200 Independence Avenue, Suite 729H, Washington, D.C. 20201. You may also transmit your appeal via email to FOIAAppeal@hhs.gov. Please mark both your appeal letter and envelope "FOIA Appeal."

[Note: there was a reference to "influenza" in this request, but it doesn't affect our request in any way because it was in the context of our example of the record we were looking to validate that the CDC does not have ANY record or research or findings for ANY so-called virus that is responsible for ANY sickness or disease - EVER!

5. June 10, 2021: CDC admits they have no record of any “MERS virus” purified from any patient sample via maceration, filtration and use of an ultracentrifuge, by anyone, anywhere, ever:

 **DEPARTMENT OF HEALTH AND HUMAN SERVICES** Public Health Service

11. April 7th, 2021 the CDC states that they have no record of “HTLV-1 virus” purification or isolation from a patient sample, by anyone, anywhere on the planet, ever:

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

Centers for Disease Control
and Prevention (CDC)
Atlanta, GA 30333
April 7, 2021

Ms. Christine Masey
21 Keystone Avenue,
Tomball, TX 77375
Via email: cmasey@gmail.com

Dear Ms. Masey:

This letter is in response to your attached Centers for Disease Control and Prevention Agency for Toxic Substances and Disease Registry (CDATSDR) Freedom of Information Act (FOIA) request of March 22, 2021.

A search of our records failed to reveal any documents pertaining to your request. Specifically, the National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention and the National Center for Emerging and Zoonotic Infectious Diseases searched but found no responsive records.

You may contact our FOIA Public Liaison at 770-488-6277 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road/CODS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448, or facsimile at 202-741-5768.

If you are not satisfied with the response to this request, you may administratively appeal by writing to the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, Hubert H. Humphrey Building, 200 Independence Avenue, Suite 720B, Washington, D.C. 20201. You may also transmit your appeal via email to FOIAAppeals@hhs.gov. Please mark both your appeal letter and envelope "FOIA Appeal." Your appeal must be postmarked or electronically transmitted by July 6, 2021.

Sincerely,

Roger Andols
CDATSDR FOIA Officer
Office of the Chief Operating Officer

[Note: there was a reference to “influenza” in this request, but it doesn't affect our request in any way because it was in the context of our example of the record we were looking to validate that the CDC does not have ANY record or research or findings for ANY so-called virus that is responsible for ANY sickness or disease - EVER!

If no one anywhere at any time in the World has isolated and proven the existence of any such novel coronavirus or for any virus as a unique pathogen, how on earth can any pharmaceutical company provide a treatment with a vaccine for a virus that does NOT even exist?

Is the virus or pathogen a mythical 'FAIRY TALE' virus that needs a mythical (but expensive and poisonous!) vaccine to destroy it?

Or is this phantom virus the creation of 'bad actors' and 'luciferians' for the purpose of redistributing the wealth of the world to themselves and at the same time reduce the surplus population of so-called 'useless eaters'?

As Voltaire once warned us:

“Those who can make you believe in absurdities can make you commit atrocities.”

As stated quite clearly by Chief Officer Mr. Roger Andoh in his CDC FOIA letters:

“Since no quantified virus isolates of the 2019 - nCoV are currently available, assays [diagnostic tests] designed for detection of the 2019 - nCoV RNA were tested with characterized stocks of in vitro transcribed full length RNA...”

As Rappaport has stated,

“Since that is the case, that there are no quantified virus isolates, how can one be sure of what is being determined as COVID -19 is, in fact, COVID - 19?”

YOU CANNOT USE A CHARACTERIZED STOCK OF GENETIC MATTER OF UNKNOWN ORIGIN CULTURED AND CONTAMINATED IN THE CELLS OF AN ABORTED HUMAN FETAL CELLS OR THE CELLS OF BATS OR MONKEY WHEN YOU ARE LOOKING FOR A PURE ISOLATE FROM A SYMPTOMATIC ANIMAL OR HUMAN TO DETERMINE ITS EXISTENCE AND ITS VIRULENCY!

YOU SEE THE SYMPTOMS OF CoV - 19 are ALL ASSOCIATED WITH THE SYMPTOMS OF CHEMICAL AND RADIATION POISONING AND NOT FROM A LONE THEORETICAL VIRUS. THE CORONA VIRUS IS NOT A VIRUS AT ALL BUT A SYMPTOM OF CELL MEMBRANE DEGENERATION I CALL THE 'CORONA EFFECT'!

The 'Corona Effect' Caused by Systemic Chemical and Radiation Poisoning
Leading to Pathological Blood Coagulation, Hypoxia and Death

The two micrographs above show the 'CORONA EFFECT' on the red blood cells with the 'SPIKED PROTEIN' caused by decompensated acidosis of the interstitial and then vascular fluids from an acidic lifestyle and specifically, exposure to toxic pulsating electro-magnetic fields at 2.4GHz or higher, chemical poisoning from the food and water ingested, toxic acidic air pollution and chem-trails and to top-it-all-off a chemical laden inoculation! Please check your feelings and false beliefs at the door before YOU prematurely cause YOUSELF harm!

To learn more about the myth of viruses, vaccines and the mythical viral theory please read and study, A Second Thought About Viruses, Vaccines and the HIV AIDS Hypothesis. You can order this book at:
